Tarrant Co. Junior Show March 17-19

The 28th Annual Tarrant County Junior Livestock Show and Auction Sale sponsored by the Fort Worth Farm and Ranch Club will be held on March 17 through 19, 1977. The Junior Show will be held in the Swine Barn at the Southwestern Exposition and Fair Stock Show Grounds. 4-H members and Vocational Agriculture students from throughout Tarrant County will be exhibiting their beef cattle, steers, swine, sheep, goats, poultry, rabbits, dairy cattle and dairy goats in the show. Up to fifteen animals in each of the slaughter classes will be sold in the Premium Auction beginning at 1:30 p.m. on Saturday, March 18. The public is invited to come to the show and buyers are welcome to the auction.

Screwworm Eradication Program Underway

"Mission '77: Stamp Out Screwworms," a massive statewide voluntary campaign by livestock producers and other leaders to eliminate screwworms from Texas this year, was launched Feb. 24 in Austin during a special conference called by Gov. Dolph Briscoe. More than 1,800 livestock owners, county Screwworm Subcommittee members, agribusiness leaders and county Extension agents participated. The campaign was launched to take advantage of a combination of factors that hold promise for its success — a cold winter that will reduce the number of screwworm flies this spring, a new strain of sterile flies, and the new screwworm plant in Tuxtla Gutierrez, Mexico, that will double sterile fly production capacity.

San. Tower Aims Bill at Bootleg Beef Imports

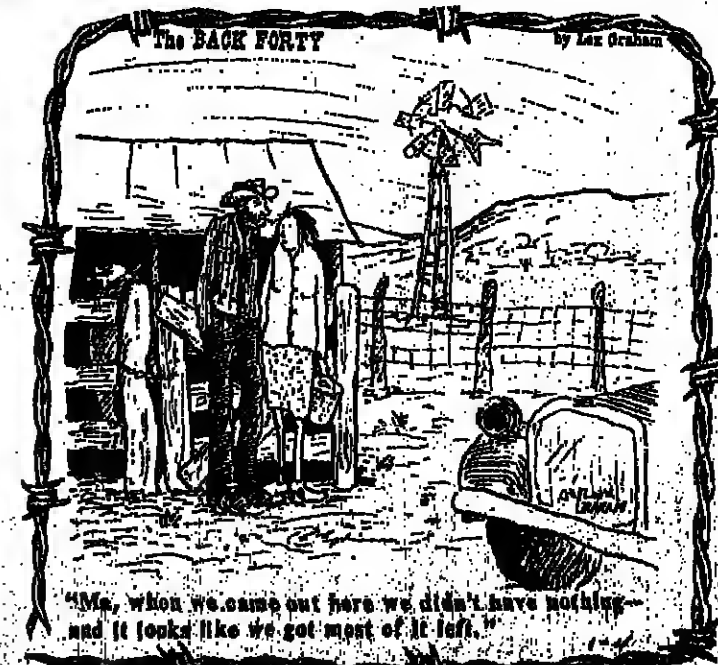

Washington — Sen. John Tower (R-Tex.) last week cosponsored legislation to close a loophole in the 1964 Meat Import Control Law which has been used extensively by Australia to avoid duties levied on beef shipments to the United States. Tower joined Sen. Dewey Bartlett (R-Okl.) in proposing the bill which would subject shipments of partially processed beef entering the U.S. through free trade zones to the same duty levied on the other beef imports. Tower said, Texas cattlemen are accustomed to competing with their counterparts in foreign countries, many of whom enjoy government subsidies and benefits which American beef producers do not. "The beef producer in this country should not, however, have to sit by while his foreign competitor enjoys (CONT. ON PAGE 27)

HERFORD Firm to \$1.50 Higher Rate Various Points, Feeder Prices Also Recovered, Hogs Sell Lower

Fed steers and heifers at the major central markets Monday were firm to 1.50 higher and receipts were slightly above a week ago. Improving beef trade was credited with the development, as well as short supplies of the product in packers hands. Hogs were steady to as much as 1.50 lower at various markets. Price trends, quotes on choice and prime steers and heifers, and the mixed good and choice grades, end on U.S. 1-3 hogs usually weighing 200 to 270 pounds included: Omaha fed cattle 25-50c up, steers 87.50-38.75 and 36.50-37.25; heifers 30.00-37.50 and 35.00-38.00. Hogs steady to 60c lower at 37.50-39.00. Sioux City fed cattle firm to 50c higher, steers 37.00-38.50 and 34.00-37.50; heifers 36.00-37.00 and 33.00-35.50. Hogs 50-75c lower at 38.00-38.75. Joliet fed cattle 1.00-1.50 higher, steers 38.00-40.00 and 30.50-35.00; heifers 37.00-38.25 and 35.00-37.00. Hogs 50-75c lower at 37.00-40.00. Peoria fed cattle 1.00-1.50 higher, steers 37.50-40.00 and 36.50-38.00; heifers 36.00-38.00 and 35.00-36.00. Hogs 1.00 lower at 37.50-38.75. St. Paul fed cattle steady, steers 38.50-37.50 and 35.50-38.50; heifers 34.80-36.00 and 33.50-34.50. Hogs 50-1.50 lower at 37.50-38.50. Sioux Falls fed cattle steady to 25c higher, steers 38.75-37.75 and 30.00-36.75; heifers 35.25-37.00 and 34.50-35.25. Hogs 50-75c lower at 37.50-38.50. St. Louis fed cattle 1.50-2.00 higher, steers 36.50-38.25 and 35.50-30.25; heifers 34.50-36.25 and 33.10-34.75. Hogs 1.00 lower at 38.50-39.25. St. Joseph fed cattle 1.00-1.50 higher, steers 35.75-38.00 and 35.50-36.50; heifers 35.50-37.00 and 34.50-35.50. Hogs 50c lower at 37.50-38.50. Kansas City fed cattle firm to 1.00 higher, steers 36.00-37.00 and 33.00-36.00; heifers 35.00-36.00 and 33.00-35.00. Hogs 50-75c lower at 37.50-38.50. Stocker and feeder cattle prices were strong to \$1 or \$2 higher at major auctions Monday, recovering some of the recent declines brought about by uncertainty in the beef trade and adverse weather conditions. More relief from drought conditions reported in the past week has set the stage for a better prospect for pasture this spring and growing pastures in most of the major cattle producing areas helped generate a more optimistic feeling in the trade. Demand continued broad for slaughter cows and bulls and strong to \$1 or more higher rates were noted at various markets.

Direct Feedlot Trade Slow, Prices Generally Steady With Spots Up

Amarillo, Mar. 7 (F-8) — Trade slow and demand light throughout the Panhandle area early Monday. Slaughter steers and heifers firm to 25c higher. Steers 2,800; Good and mostly choice 70-85 percent choice 2-4 1025-1200 lbs. 37.75 to mostly 38.00. Mixed good and choice 2-4 1050-1100 lbs. 37.00. Heifers 1,600; mostly good and mostly choice 2-4 875-925 lbs. 36.00, 1,200 head sold on rail basis. Trade moderate at best throughout the Panhandle area Friday and over the weekend. Slaughter steers 25-50c higher, slaughter heifers steady to 50c higher. Steers 6,000; Good and mostly choice 70-85 percent choice 2-4 1025-1200 lbs. 37.25-38.00, around 1,200 head at 88.00. Mixed good and choice 2-4 1050-1100 lbs. 36.00-37.00. Load good and choice 2-4 1150 lb. Holsteins 33.50. Heifers 3,000; Good and mostly choice 2-4 875-975 lbs. 35.00-36.00, near 1,000 head at 36.00. Load good and choice 2-4 1000 lbs. 33.50. Eastern Nebraska Feedlot Sales, Mar. 7 — Over the weekend and Monday 4,300 slaughter cattle. Demand Monday only fair, even at barely steady prices. Slaughter inquiry fairly liberal. Steers: Good to mostly (CONT. ON PAGE 2)

Stuph & Thangs

(CONT. FROM PAGE 1)
for Agriculture, especially in labor & Consumer interests, farmers & ranchers appear in good position to and up on the "Outside & lookin' in while their fate is being regulated.

We ain't seen no signs on the part of Mr. Carter or anyone else in the New Administration to insist that farmers & ranchers should be represented in the Labor Department, Transportation Department, Commerce Department, Health, Education & Welfare, Federal Power Commission, the new Energy Department, or any of the others. All of these Regulatory Bodies have a big hand in what happens to Agriculture, whether it turns out to be Good, Bad or Indifferent.

One reason, natchery, is that farmers & ranchers in most cases have not pressed for these kinds of

Jobs. Agriculture has depended on the various farm and livestock organizations to lobby in their interests in Washington, but those efforts are sometimes negative for the simple reason that Farmers & Livestock folks often do not agree among themselves as to just what they think is best or art to be done. This conflict plays into the hands of people like Big Labor and Consumer Advocates who have simple and unified goals. Labor wants higher wages and more fringe benefits, and the Consumers agree that what they want is lots of food and energy at low prices.

There is a natchery conflict between the various segments of Agriculture. Grain farmers and feeders are in a natural born adversary position as they tread with each other. Meat producers, whether it's red meat or poultry or fish are in a constant battle for the Consumers' dollars, and the

same kind of rivalry is produced in fruits, vegetables and the battle continues right down to the hot dog stands and the grocery stores.

This might be a good time for Farmers & Ranchers to take stock of their position and see if they can't get a few Farmer and Rancher Advocates in the various Bureaus that regulate their fate. Think it over.

Ever Thine,
The Editor.

P.S.: Uncle Dunk notes that the Carter Administration, so far anyway, has been unique in that spokesmen for the various Departments have shown no hesitancy to pop off. Good examples, of course, have been the African Safari by the new U.S. Representative to the United Nations. Of even more importance are some of the "Trial Hauls" like the recent one where Ag Secy Bob Bergland announced plans in such agreement with Canada to set wheat prices in a fashion similar to the way OPEC has set oil prices. Since the U.S. & Canada's moment control 75% of the international volume of wheat in the world, wheat exporters to Australia, Argentina, Turkey, South Africa and European Common Market countries do not go along, our export markets could shrink considerably. What is really odd is that Bergland fired off this idea, apparently without asking Canada if they were interested. Canada has traditionally undercut U.S. wheat prices about 5¢ per bushel, Argentina recently has undercut them from 30¢ to 50¢ per bushel. Joseph Califano has been giving other Govt. Departments the run-around going to friendly Congressmen to be included in the \$50 tax rebate whether they paid taxes or not. Dunk says this free-wheeling is something different, the question is how long Carter stand it? — Thass Brothers!

Charolais "Sale Of Sales" Average \$6,879 in Houston

Houston — In the 12th Anniversary "Sale of Sales" sponsored by the Texas Charolais Breeders Assn. at the Houston Stock Show Feb. 25, the 81 lots sold for \$218,260 for an average of \$6,879 to maintain the event's reputation of being the "Pace-setter of the Charolais Industry." Jernigens Charolais Sales Management, Tyler, manager the sale and George Morse, Lenexa, Kan., was the auctioneer.

In the Junior Charolais sale which followed, seven heifers sold for \$7,000 for a \$1,000 average. In the Sale of Sales, four bulls sold for \$18,700 for an average of \$4,675 and 26 females \$185,300 for an average of \$7,127. All animals in the sale were full French.

L. B. Williams, Hefleyville, Ala., consigned the top selling bull, Mr. Bruce LBW W624, that was purchased by Lockert's Land Improvement Co., West Chicago, Ill., for \$8,700.

Leroy Melcher's Mel Aereo Ranch, Chappel Hill, consigned the sale

topping female, Miss BCR Ingenium 3/2, that was purchased by W. L. Bates' Bates Ranch, Bandera, for \$20,000.

C. M. Buchanan, Graham, consigned 50 vials of Abroham semen that sold for \$11,250 at the beginning of the sale.

In the Junior sale Debby Schill, Houston, consigned the top heifer, one purchased by M. R. Holdenbrand, Nacogdoches, for \$1,450.

Charolais Registrations Show Improvement

Houston — Registrations of purebred Charolais cattle during 1976 totaled 45,861 animals, overcoming a two-year decline resulting from a generally bad economic position of the overall beef industry, states Dr. J. W. Gossett, executive vice president of American-International Charolais Association.

"Generally improving economic conditions within the industry, and a favorable position given Charolais as a result of recent changes in the beef grading system accounted for this turn-around for the breed," he added.

Bill Arlitt of San Antonio, secretary-treasurer of the Texas Charolais Breeders Assn., is shown presenting a plaque to Modena and Robert Jernigan, Tyler, at the 12th anniversary Charolais "Sale of Sales" at the Houston Stock Show Feb. 25 in honor of Jernigan's Charolais Sales Management having managed the 11 previous sales in which \$5,076,300 was paid for 185 1/2 lots of cattle for an average of \$10,462.24. This sale added another \$218,260 to that total.

Arkansas cattlemen will produce nearly \$170 million worth of beef during 1976.

Faster Pasture FP-1

Higher Seed Count . . . Less seed per acre or Higher quality forage

Plant a field of Funk's Faster Pasture (FP-1) sorghum-sudangrass hybrid—even late in the season—and get a crash forage crop. Watch the field grow a foot or more a week in normal conditions . . . ready to eat in about 30 days.

You can graze or cut it 3 or 4 times. Fast regrowth with high protein value and palatability are locked-in well into the summer growing season, when perennial forages fall or go dormant. Sweet, juicy leaves and stalks provide an excellent all-summer forage crop with high TDN.

Count on these drought-tolerant Funk varieties to produce all the high-quality grazing, hay or greenchop your livestock need—and in a big hurry. Recent tests proved a Funk sorghum-

sudangrass hybrid produced an equivalent of 338 fifty-pound bales of hay per acre in 3 cuttings.

For grain-rich, high-tonnage silage, plant Funk's disease-tolerant sorghum hybrids. Or ask about Funk's grain sorghum varieties that produce big yields of robust and nutritious kernels. Bred with disease and insect resistance.

See your Funk's G dealer for test results and planting recommendations for your area.

Rowse Hydraulic Farm Equipment At Ft. Worth Show

A new three-yard dirt scraper that is wider than the average farm tractor with single rear wheels has been introduced by Rowse Hydraulic Rake Company of Burwell, Neb.

Rowse will have a display of the new scraper, "Quick Hitch" mowers,

Rowse Hydraulic Scraper

and rakes in lot 23 outside the Southwest Farm Show in Fort Worth March 11 through 13.

The new scraper is 111 inches in total width. Blade width is 60 inches. The cutting blade is made of road-tractor type Pacel steel.

Minimum drawbar power required for the Rowse Dirt Scraper starts at 50 horsepower. Main hinge pivots are 2 1/4-inch cold rolled shafts with bronze bushings. Two double acting hydraulic cylinders with 1 1/2-inch shafts position the scraper for loading.

Southwest Farm Show Tractor Pull Opens March 11

(CONT. FROM PAGE 1)

at 5:30 p.m., according to the late Harry Bryant, former Farm Show Manager.

Bryant emphasized that this year's carrying and dumping. One tractor-mounted double acting valve controls the complete unit.

The new scraper was designed specifically for on-farm use. It is wide enough, when attached to a farm tractor, to fit up against foundations or stock tanks, and carries a large application from digging trench slots to filling potholes, according to the manufacturer.

More information is available from Rowse Hydraulic Rake Company, 62 miles north of Burwell on Highway 111, Burwell, Neb. 68323. Telephone (308) 748-2276.

'Mini Bull' Corral Fence

NEW IMPROVED
ALL-GALVANIZED NOW! Stronger, heavier longer lasting!

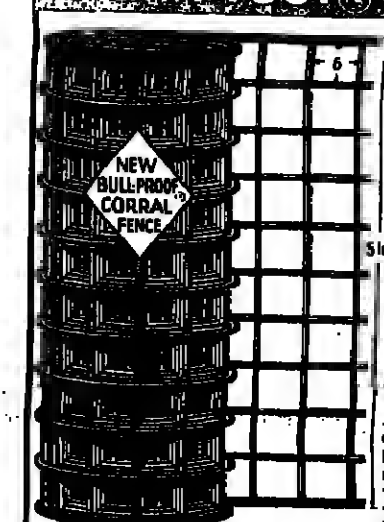

Mini-Bull corral fence, originated by Bernstein Brothers, is now even better with the addition of extra-heavy 5 gauge (approx. 3/16 in. dia.) steel top, bottom, and two intermediate line wires. This affords greater strength and durability and will add years of service to this product. All other horizontal and vertical steel wires are heavy 10 gauge (approx. 1/8 in. dia.). Openings are 4 feet square, rolls are 5 feet high and 150 feet long. This new, improved corral fence is all-welded and all-galvanized.

LOOK! This is the actual size (approx. 3-1/2 in. dia.) of the new heavier 5 ga. top, bottom and two intermediate wires.

'Bull-Proof' Corral Fence

NEW IMPROVED
ALL-GALVANIZED NOW! Stronger, heavier longer lasting!

This is the original "Bull-Proof" Corral Fence, designed and introduced by Bernstein Brothers as a new concept in corral fencing years ago... and now made even better with the addition of super-heavy 4 gauge (approx. 1/4 in. dia.) steel top and bottom wires. All other horizontal and vertical steel wires are still extra heavy 4 gauge (approx. 3/16 in. dia.). NEW Improved "Bull-Proof" Corral Fencing outlasts wood, yet costs less and is faster and easier to install. A rugged, maintenance-free fencing, a one-time investment in money and time. Ideal for crowding pens, alleyways, chutes and hundreds of other uses. All welded. All galvanized. 8 inch square openings, 5 feet in height, 150 feet in length. Always install on the Original "Bull-Proof" Corral Fence.

Kimbell MEDICATED FEEDS ARE MONEY MAKERS

It goes without saying that no program or type of feed can guarantee a profit on a particular set of livestock. However, it is possible to guarantee that with proper management a feeding program will make livestock more valuable — better money makers.

KIMBELL Medicated Feeds Are Designed to Improve Animal Health and Balance Nutrition

This type of program improves the appearance, gives livestock that "good doing" look — this convinces your buyers they are "worth more."

Yes! The Way of an Indian is the discriminating gift, and by all means that should not be overlooked — a story that will be remembered by the reader. Now on this limited offer for your own collector's copy and those special gift

What Reviewers And Readers Are Saying:

In the printed word, Remington maintains his exceptionally gifted creativity and gives to the world a real, realistic saga of a Cheyenne Indian named Fire Eater. "The Way of an Indian" is a stirring tale of adventure. Fire Eater's spellbinding stories set against the rich fabric of America's wilderness... a must in the home and reference library of Americana." — Frances Beeson Smith, Story Editor, Global Entertainment Media.

"The Way of an Indian is, indeed, a remarkable and unique achievement. As in everything he did, Remington's accuracy of detail, thorough knowledge of subject, and respect for Indians set his work apart from that of his contemporaries. Few men who knew Indians well could think and feel as Indians. It is the genuineness of his portrayal and his rare ability to see life through an Indian's eyes, rather than its purely literary qualities, that make 'The Way of an Indian' one of the most memorable books ever written about the American Indians." — Donald E. Worcester, Editor, Rawlins and Writer.

It is one thing to show the way of an Indian by means of brush and pencil. It is another thing to show it by word and sentence. Mr. Remington has a fancy for both methods, and if he does not fully succeed in making us feel as if we had been inside the skin of a red man known among his tribe members as the Fire Eater, at least we are given... a vivid and picturesque exhibition of this typical Indian and his ways... While the pitiless snow whiteness of the hunted creature's last rocky mountain stronghold accentuates the contrast as strongly as every colorial could wish." — New York Times

Included in Memento Publications' Commemorative salute to Frederic Remington is "THE FREDERIC REMINGTON PROFILE — 1976"... uniquely written by the internationally known writer, Donald E. Worcester giving an in-depth account of Frederic Remington's life and times — October 1, 1861... December 26, 1909.

Finneys, Pioneer Pinzgauer Breeders, Set First Production Sale March 19

Terrell, Texas — The Finney family's Double Check Pinzgauer Farms of Argyle and Canton, Texas, will host the first Pinzgauer production sale to be held by a Southwest breeder beginning at 2 p.m., Saturday, March 19, at the J-Ben Cattle Sale Facility on Farm Road 148 a half-mile south of Interstate 20 at Terrell, 20 miles east of Dallas.

The sale will climax four years of Pinzgauer activities by the Finneys, Ken, Chuck, Dick and their father, Delbert Finney, all of whom have been involved in Pinzgauer breeding since the breed was introduced in 1973. In fact, Ken Finney was co-founder of Pinzgauer Southwest, Inc., the first Pinzgauer firm in the Southwestern U.S., and he served one term as president of American Pinzgauer Assn.

Although showing of Pinzgauer cattle has necessarily been limited so far, the Finneys have already established an enviable record in the showing. In the first American Pinzgauer Futurity, held late last year at Oklahoma City, the Finneys entered 13 head and all but four of them earned trophies, and took places 1, 2, 3 and 8 in the open heifer division of the show.

In this sale, the Finneys will sell all of their Pinzgauer show string of cattle.

The offering will include one pure-blood bull and one pure-blood heifer, guest consignments from Canada, one bred three-quarter heifer that is bred

This Pinzgauer heifer was the first place winner in her class at the recent American Pinzgauer Futurity. Double Check Farms will sell the three-quarter Pinzgauer heifer bred to calves the first seven-eighths Pinzgauer calf in the U.S. in the March 19 sale.

to calve in April with what is believed to be the first seven-eighths Pinzgauer born in the United States. Also selling will be six open three-quarter Pinzgauer heifers; eight three-quarter cull pairs; 25 bred half-blood cows and heifers; 15 open half-blood heifers; and three three-quarter performance tested Pinzgauer bulls which are now completing official 140-day test at Cooke County College Beef Evaluation Center at Gainesville. So far those bulls have averaged gaining more than four pounds per day on the test, with the top one so far leading

Size of the Pinzgauer calves at birth — small and smooth — is exemplified by the 45-pounder above, born unassisted from the first-calf dam, Ken Finney, one of the owners of Double Check Farms, says they have no calving difficulties, even with first-calf heifers.

Halfblood Pinzgauers that are one-quarter Brahman and mixed blood are among the bred heifers the Finneys' Double Check Farms will be selling in the first Pinzgauer production sale to be held by a Southwestern breeder in the U.S. The sale will be at 2 p.m., Saturday, March 19 in the J-Ben Cattle Sale Facility on FM 148 a half-mile south of Interstate 20 at Terrell, Texas.

There are many reasons why the Finneys like Pinzgauer cattle, but two of the most prominent reasons are the cattle's ability to "acclimate" for themselves, and the ease of calving the Finneys have experienced. "We've had one of the worst winters I can remember, but our Pinzgauers have wintered well although we only started giving them hay six weeks ago to get ready for the sale," Ken said. The ease of calving is attributed to the small, smooth calves at birth —

A group of the halfblood Pinzgauers Double Check Farms will sell March 19 at J-Ben Cattle Facility at Terrell is shown above.

calves from one bull the Finneys are using by artificial insemination have averaged only 45 pounds at birth, and the largest from another bull they use has been about 65 pounds, and all the calves have been born unassisted, even to first-calf heifers.

Ken Finney said: "As a pioneer American Pinzgauer breeder, our faith in the breed has grown even stronger as the breed continues to set new performance records among all U.S. cattle which is the positive indicator that Pinzgauer will definitely improve the future U.S. beef production. We are extremely proud of our role in Pinzgauer production and promotion."

The cattle selected for this sale are from a full spectrum of foundation breeds and will reflect greatly on our reputation as Pinzgauer breeders. We are offering which we feel is an outstanding set of cattle, striving for a reputation as "outstanding" Pinzgauer breeders.

Stanley Stout, Linwood, Kan., will be auctioneer for the sale. Events connected with the sale will include a pre-sale get-together for preview of the cattle at 8 p.m.,

Exceptions to the above were Oklahoma City steady to firm, Dodge City, Kansas calves steady to 1.00 higher and Arkansas steers 2.00-5.00 lower. Concern about the again lackluster early week slaughter cattle market and concern about moisture were dominant negative factors in this week's trade.

Heavy snowfall in the Rockies at least gave some encouragement about summer water and a violent blizzard swept the northern plains states. These does seem to be some weather signs of encouragement in the blocking highs that have been plaguing the West Coast and Northwest seem to have dissipated and allowing the moisture pattern to resume a more normal pattern.

Come see what makes us **ROWSE** dealers happy

ROWSE balanced head mowers
• The "Quick-Action" cutting double mower can mow, strip, and clean in the morning, rake in the afternoon — with the same tractor. And it's quick, too! It's a real time saver and you're ready to mow.
• Tough, balanced head drive with 40% horsepower cutter bar built through heavy alloy, tough grade 50 steel.
• 100% cutting action — no pulling or pushing ever. Slices evenly at 2,000 strokes per minute.
• Patented operation in a quick, easy-to-use, one-step cycle to ground in about 10 seconds.
• Easy to transport position behind tractor or pull your own trailer.
• Best features are found on Rowse mounted double mowers. Cut 14 to 18 feet wide.

ROWSE hydraulic rakes
Hydraulic rakes with built-in reliability. Two and three section models. Choice of 8 sizes, from 18' to 48' wide.
• Real hay saver. Clean up hay after mowing, lay on the ground. Flexible design fits over uneven fields.
• Positive hydraulic control with back register. Rake just the right area, up to 100' wide, up to 10' high.
• Gentle handling cuts hay easy. Hay cures faster, more uniformly, so you can stack or bale sooner. Preserves more nutrition value, too.

ROWSE hydraulic scraper
Now you can move your own dirt! Dig a hole or a base, then scrape up your terrace, fill in a ditch, or level a field. The scraper is built to last. It's a real time saver and you're ready to work.
• Cutting action of 8' to 12' wide than most tractor scrapers. Any right up to 10' to 12' of material.
• Full 3-year capacity. Can hook, too, in tandem for double capacity.
• Full hydraulic control. Requires just one double-acting control valve mounted on the tractor's lift arm.
• Designed for 50-60 hp tractors in most soils, but works great with bigger units, too. Cutting blade is graded, and can be removed for scraping or mounding.

The Rowse label stands for reliability.
